

SUBODH HANDE

Generative AI Engineer

Pune, Maharashtra, India | +91 7709030962 | handesubodh@outlook.com | linkedin.com/in/subodh-hande | github.com/handesubodh

SUMMARY

Generative AI Engineer with **3+ years** of experience delivering end-to-end GenAI applications on Microsoft Azure and Databricks, currently combining hands-on development with a parallel Presales charter. Delivered **2+ production GenAI applications and 15+ enterprise POCs/pilots** across BFSI, Real Estate, Manufacturing, Logistics, Fantasy Sports, Healthcare, and Media. As part of the Presales team, contributed to requirement gathering, solution architecture, SOW/BOQ authoring, and resource planning for enterprise engagements, including supporting the end-to-end presales-to-delivery lifecycle for **Tata Sons' Deep Research AI Innovation Intelligence platform**.

SKILLS

Programming	Python
GenAI Frameworks	LangChain, DSPy, CrewAI, Azure AI Foundry, Mosaic AI
Agentic Systems	RAG, Agentic Workflows, Multi-Agent Orchestration, MCP, A2A Protocol, NLQ, Prompt & Context Engineering
APIs & Backend	FastAPI, Flask
Databases	SQL: PostgreSQL, Azure SQL NoSQL: MongoDB Vector: PG Vector, Azure AI Search, ChromaDB, Qdrant
Cloud & DevOps	Azure (OpenAI, AI Foundry, Document Intelligence, Web Apps, Cosmos DB, ADLS, Functions, Key Vault, APIM), Docker, CI/CD (GitHub Actions)
Data & MLOps	Azure Databricks (Mosaic AI, Unity Catalog, MLflow), Neo4j
Evaluation	MLflow (LLM/Agent Evaluation & Tracing), TruLens, RAGAS, BLEU Score
Presales & Delivery	Requirement Gathering, Solution Architecture, SOW Authoring, BOQ/Cost Estimation, Resource Allocation, Stakeholder Management

PROFESSIONAL EXPERIENCE

Bizmetric India Pvt. Ltd. — Generative AI Engineer

Apr 2023 – Present

Pune, Maharashtra, India · Progressed Intern → Associate Software Engineer → Software Engineer → Software Engineer-I → Software Engineer-II

- Delivered **2+ production Generative AI applications and 15+ enterprise POCs/pilots** live on client platforms, spanning BFSI, Real Estate, Manufacturing, Logistics, Fantasy Sports, Healthcare, and Media.
- Leads **Presales** in parallel with development: gathering client requirements, designing solution architectures, authoring SOWs and BOQs, and aligning resource allocation with Delivery Managers at engagement kickoff.
- Owned end-to-end Presales and co-led delivery for **Tata Sons' Deep Research AI Innovation Intelligence platform** — authored the full SOW and Azure BOQ, architected the agentic RAG solution, led a development team, and contributed hands-on to the build.
- Mentored **5+ engineers** across GenAI, data engineering, and DevOps functions.

KEY PROJECTS

Deep Research AI Platform for Innovation Intelligence — Tata Sons (2025)

- Owned the complete presales lifecycle — SOW, technical architecture, Azure BOQ, resourcing — and architected a multi-agent Hybrid RAG platform (router agent, patent/web-research MCP agents, white-space analysis agent, PG Vector) as an NLQ research assistant for executive decision-making.

CHRO Workforce Intelligence Platform — Reliance Industries Limited (2024)

- Delivered an enterprise CHRO platform (Attrition Prediction, Succession Planning, JD-CV Matching, AskHR assistant) on Databricks; built a production XGBoost attrition model on 180K+ employees / 130+ features achieving 76.4% recall, with full MLOps via MLflow and Optuna.

PeopleFirst AskHR — Agentic HR Operations Platform — RIL (2024)

- Built an agentic HR assistant integrated with HRMS, QMS, payroll, leave and travel systems; implemented RAG over HR policies and NLQ over governed data with role-based access via Unity Catalog.

JioHub — Agentic Enterprise Intelligence Platform — RIL (2023-2024)

- Designed a multi-persona agentic platform delivering role-based Business and Finance Intelligence agents over Lakehouse gold-layer data via natural-language queries.

AI-Graph Driven Accounting & Finance — RIL (2023)

- Designed a graph-aware, explainable system combining Neo4j with LLM-based preprocessing and a FastAPI + ReactJS application for end-user interaction.

AI-Powered Customer Support Chatbot — HFCL (Hero FinCorp Ltd) (2023)

- Built a secure hybrid RAG + agentic chatbot for document Q&A and loan/account queries with OTP auth and Azure Key Vault; deployed on Azure Web Apps/APIM with CI/CD and full observability.

AI Chatbot for Real Estate Sales Enablement — TVS Emerald (2023)

- Built a GenAI sales chatbot for source-cited Q&A over brochures and floor plans, with document ingestion/vectorization pipelines and OTP-based session-persistent chat.

Document Processing & Knowledge Ingestion Platform (2023)

- Built a unified ingestion platform across PDF, Word, Excel, PPT and image documents with OCR pipelines, master data modelling, and session management for downstream RAG systems.

EDUCATION

- **M.Sc. Data Science & Big Data Analytics** — MIT World Peace University, Pune — 2023
- **B.Sc. Computer Science** — Modern Education Society's Nowrosjee Wadia College, Savitribai Phule Pune University — 2021
